

Year 9 Options 2025

Please read this form carefully, look at the examples and then make your choices at the bottom.

- You need to choose 3 subjects – one from each option block.
- You will make a first, second and third choice in each block. You will write number 1, 2 and 3 next to the subjects that you choose.
- You must choose at least one of the gold subjects. This can be in any of the option blocks.
- You cannot choose both Engineering Design AND Design Technology.
- Certain subjects may have entry requirements – think back to the guidance from your teachers and choose subjects that are suitable for you.

Example:

A student would like to study Geography, Drama and Business. These are their first choices. They are also interested in Sports Studies and Health and Social Care.

This is how they have completed the form.

Additional: All students will study a total of 8 qualifications. We would like to offer a small group of students the chance to study an extra qualification – this would be Separate Sciences. For us to timetable this – these students will have 4 hours of English and 4 hours of Maths per week instead of 5 hours of each subject.

To be considered for this, students should be achieving highly in Science, Maths and English and have an interest in Science. They should be selecting Separate Sciences as one of their choices.

- ☐ Please tick this box if you are interested in this and would like to consider it for your child.
